

EXHIBIT 1

The Company will provide:

1. Late model two-engine street sweepers in excellent operating condition.
2. Each sweeper will be operated by a competent, trained operator whose sole responsibility is street sweeping.
3. The operators will notify the Village's Public Works Superintendent if excessive amount of leaves is affecting sweeping performance or productivity.
4. Spring clean-up includes removal of salt used by the Village for ice control.
5. Sweeping will be performed on the first Tuesday and Wednesday of each month with the exception of November, unless directed otherwise by the Public Works Superintendent. Final 2019 sweeping will be done in mid to late November.
6. Sweeping will be performed May through November.

The Village shall provide:

1. Use of hydrants and water.
2. Use of a dump truck for the disposal of debris.
3. Leaf removal of approximately 95% of the leaves on streets to be serviced before sweeping commences.
4. Sign posting.

Exclusions:

1. Excessive leaf removal greater than approximately 5% of the leaves on the streets to be serviced.
2. Dump truck for disposal of debris.
3. Sweeping of excess chips from chipping and sealing programs.
