3. Administrator Haddix reviewed a memo on updates of projects. He said the Fellowship Baptist Church is expanding. He said their site plan review will be week after next. Jerry said Woodknoll Section II is almost completed. He said Pike Street should be paved in a week or so. Jerry said he will meet with Mike Shadoan from the county and Trane to go through the old school. He said according to Mike the longer we keep that empty the more damage will be caused without heat or air. Mayor Lawhorn said we walked through with Mike and he thinks we have a good viable building and that it really won't be as much work as we thought. He said the thought is to put heat, air and electricity through to the upstairs at time you do downstairs or you will be going back and tearing out. Jerry said he is looking into someone to lease the upstairs that might defray some of the costs. Lengthy discussion about options. Jerry said personnel committee met Tuesday and hopefully we have made all the changes to the manual and then it will be brought to council for discussion. Jerry said we are working with Bruce to update the Tax Ordinance and gave him a sample. Haddix said all the items are on GovDeals now. Jerry informed council of the dates of closure for Zoar Road improvements and the detour routes. Jerry discussed the Fall Festival plans.

 Jerry said back in 2007 none of the Vista Pointe or Stonebrook streets were formally accepted so we are working on getting that done.

4. Mayor Lawhorn said if you hear anyone talking about the park and the blue Wasps, they are all over it but they don't sting. Jerry said they are a blue winged wasp and they sting but they live in the ground and live off the beetles.

5. A motion to adjourn the meeting was made at 7:15 p.m. by Boerio, seconded by Riley, all yeas.
