- Disinfectant wipes
- Dish soap
- Ensure Protein drinks
- Adult incontinence garment
(Depends)
- Hard candies (lifesavers, butterscotches etc.)
- Activity Books (word search / adult coloring books / colored pencils, etc.)

Dear Community Members,

The Coronavirus crisis is affecting almost everyone's routines, transportation, and some "non-essential" services. This means that the usual support and contacts that many vulnerable elderly adults have with others may be diminished.

In response, Village of South Lebanon is partnering with the United Way of Warren County Volunteer Resource Center and Warren County Community Services in the Supporting Seniors Through COVID program. This program asks members of the community to purchase from the list of specific items to create care packages that can be delivered to older adults throughout Warren County who continue to shelter in place during this time.

Community members are invited to help while maintaining social distancing by shopping for and donating items from the list.

By providing at least three items from the list you can make a huge difference to the quality of life for a local senior.

After purchasing, simply put sealed / unopened items in a tied shopping bag and deposit it in the community bin to be distributed to those in need in our community.

Our community bin is located at South Lebanon Administration Building, 10 North High Street,

Thank you for supporting this very worthwhile cause. As the Community Champion of Village of South Lebanon I stand ready to answer any questions you may have, feel free to contact me at lburke@southlebanonohio.org or 513-280-0929

Linda Burke, South Lebanon Council Member
