**Warren County PSAP:**

5.09 IV A Call Processing

**1. EMERGENCY 911 CALLS RECEIVED FOR AREAS NOT WITHIN OUR COVERAGE**

An ED receiving an emergency call for an area not covered by this Communications Center will either transfer the call or gather all the necessary information and relay it to the appropriate dispatch center. Whenever transferring a call, the ED **must** stay on the line to ensure that the transfer was successful, the caller is still on the line, and was connected. The ED will let the receiving agency know who he/she is, the location of the caller and the nature of the call being transferred.

The ED will never give the caller the proper dispatch center's number and tell them to call it themselves. Additionally, do not further confuse or add to the caller's anxiety by lecturing them on the fact that they have called the wrong agency.

a. After the ED has determined the 911 call should be transferred to another Public Safety Answering Point (PSAP) he/she will advise the caller that they are being transferred to the appropriate agency and will remain on the line.

i. If the PSAP is within Warren County:

The ED will do a tandem transfer to connect to the appropriate PSAP. When the other PSAP dispatcher answers, the ED shall identify in the following manner:

*“This is Warren County with a 911 transfer.”*

The ED will ensure the other PSAP has received the 911 screen information and will provide the dispatcher with the location and the nature of the call. Only then can involvement with the call be terminated.

ii. If the PSAP is outside of Warren County:

The ED will transfer to the other PSAP’s 7-digit line. When the other PSAP dispatcher answers, the ED shall identify in the following manner:

*“This is Warren County with a 911 transfer.”*

The ED will give the other agency the call location and the nature of the call. Only then can involvement with the call be terminated.

b. If the ED cannot transfer the call because of a busy signal at the other PSAP or for any other reason, the ED is responsible for handling the call. The ED will then make a call for service, gather all information and follow the appropriate PDS protocols while another ED relays the information to the proper point for dispatch.

c. A 911 call shall not be transferred when this communication center dispatches any equipment for that particular 911 call. You or another ED will relay the details to any additional agencies by a separate phone call.

Each such authority immediately shall notify the board of county commissioners in writing of its approval or disapproval of the final plan. Failure by a board or legislative authority to notify the board of county commissioners of approval or disapproval within such sixty-day period shall be deemed disapproval by the board or authority.*

(B) *As used in this division, "county's population" excludes the population of any municipal corporation or township that, under the plan, is completely excluded from 9-1-1 service in the county's final plan. A countywide plan is effective if all of the following entities approve the plan in accordance with this section:*

*(C) After a countywide plan approved in accordance with this section is adopted, all of the telephone companies, subdivisions, and regional councils of governments included in the plan are subject to the specific requirements of the plan and to this chapter.*
