

# PUBLIC MEETING – TUES. AUG 10\*

## SR 48 Corridor Improvements (WAR-SR 48-7.01, PID 112909)

**\*Informal Open House format between 5pm – 7pm at the Hamilton Twp Administration Building  
7780 South SR 48, Hamilton Township, Ohio**

Please also see [www.WCEO.us](http://www.WCEO.us) for additional information and future updates.

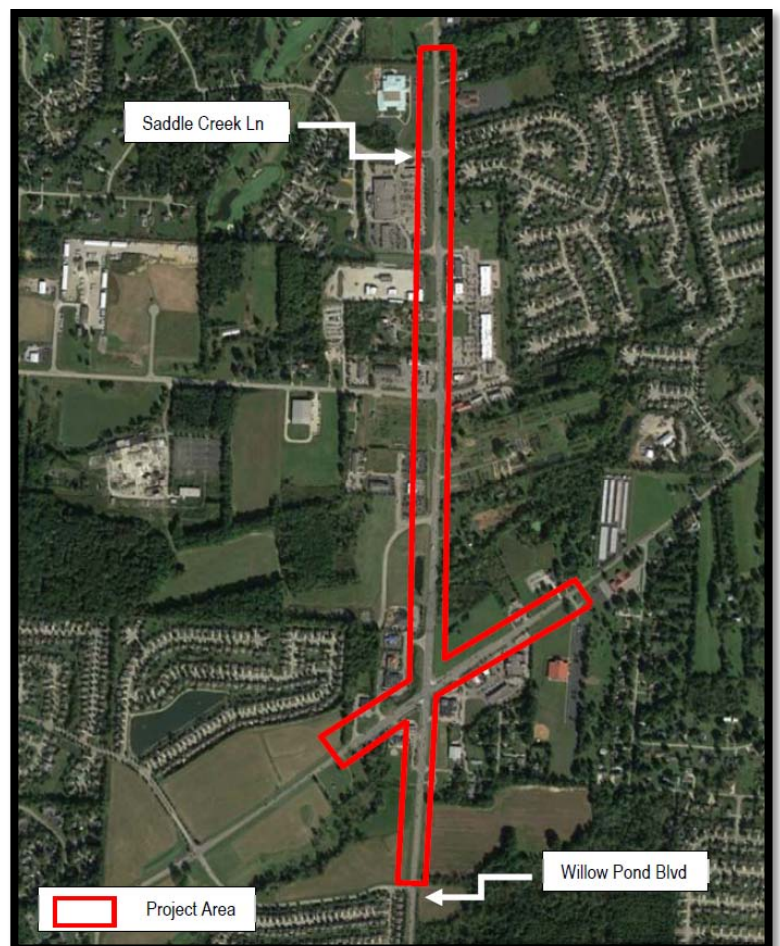

### PROJECT INFORMATION

The intent for this project is to improve safety, ease congestion, accommodate existing and future traffic and travel demand, and improve sidewalk connectivity. This will be done by widening SR 48 from Saddle Creek/Ridgeview Lanes to Willow Pond Boulevard to a consistent five-lane roadway with two through travel lanes in each direction and a center turn lane. US 22/3 will be improved to add capacity to the SR 48 intersection with additional turn lanes. The project also includes the addition of sidewalk along developed SR 48 properties located between US 22/3 and Saddle Creek/Ridgeview Lanes. All four signalized intersections within the project limits will be replaced to accommodate the additional roadway widening.

During construction, a minimum of one lane of traffic in each direction will stay open and business access will be maintained.

Comments for this project will be accepted through August 31, 2021, and may be submitted by mail to Warren County TID, 105 Markey Road, Lebanon, OH 45036; by email at [David.Mick@co.warren.oh.us](mailto:David.Mick@co.warren.oh.us) or by phone at 513-695-3308.

Concept plans will be available on the Warren County Engineer's website following the meeting.

### PROPOSED PROJECT SCHEDULE

- **July 2021** – Complete Environmental Documentation
- **October 2021** – Begin Right-of-Way Acquisition
- **August 2022** – Final Plans Complete
- **January 2023** – Project Awarded
- **Spring 2023** – Begin Construction
- **Fall 2024** – End Construction
